Bring Color Home

California
Classics

The design of your home is a personal statement.

The Mediterranean Collection floors are available in gorgeous colors. We've organized them into six inspired families to help you find the perfect mood, style and ambience to fill your home.

Natural warmth fresh off the farm.

Today's hottest looks veer light and airy—here are the light, inviting Neutrals to transport you there. Embrace sophisticated, clean and simple.

Mondariz

There's a natural comfort to the lightest tone of this color family, a bright near-whitewash creates easy living spaces. Veer monochromatic with accompanying neutral fabrics and paint and can't help but love the feel.

Granville

Mixing light granite gray with the most whitewash in the grain for this family, Granville pairs with every palette. Contrast with deeper colors or veer monochromatic—either way, the feel is easy to live with.

Margaux

Sure to please, this muted sophisticated tone lies in the middle range of our Neutrals color group.

Cannes

Whitewash enlivens this hue, brightening the wood's natural grain and welcoming the rich contrast of deeper blues, greens and browns. The brightest of this family's shades, Cannes adds glamour to everyday living.

Rochelle

Deeper than whitewash, more muted than mid-tone —this warm, earthy shade blends beautifully with a range of design palettes. Match its sophisticated grain-tinted foundation with your design creativity.

Bring warmth and taste home.

As easy to wake up to as breakfast in bed, our Toast color family offers earthy warmth with expressions of light gray and taupe. A perfect pairing to turn living spaces elegant and inviting.

Driftwood grays.

There's no way to feel neutral about coastal beauty ranging from rugged to graceful. Sky, ocean and weathered wood grays evoke modern elegance.

Lisbon	MCLB391
Bayonne	MCBY452
Bilbao	MCBB438
Gibraltar	MCGB494

Lisbon

By adding more whitewash in the grain, this gray lightens the mood and invites effortless living.

Bilbao

A neutral with added nuance, this very light, washed and weathered white gray is as unique as it is inviting.

Bayonne

Amongst this color family, here the gray veers darker and more washed over. Consider Bayonne for gathering spaces, for family-friendly moments, for a life at home filled with relaxed, rewarding moments.

Moda

We turned the volume down on gray here, for a muted ambiance featuring a hint of whitewash in the grain.

Sebastian

A happy middle ground capturing the beauty of the gray hardwood trend, Sebastian is earthy and soothing. Add contrasting greens and browns for a traditional feel, or explore bold, blacks, golds, and navy for drama that happens naturally.

Toulon

We began with the deepest gray tone of this family, and then warmed up the mood with a hint of toasted brown. Here's a perfect canvas for your design creativity, freeing you to explore accompanying wall and fabric shades.

Grays beautifully grounded.

The enticing gray-brown coloration of our Earthy Gray family evokes natural warmth—a new on-trend look to inspire sophisticated interiors.

Deep tones. Sophistication that's deeply emotive.

For welcoming spaces that make every day feel special, our deepest family of colors blends midnight grays and jewel-like bronze tones. As evocative as they are luxurious, these hardwood tones bring sophistication to every space.

Color	SKU
Ionian	MCNN500
Santolina	MCST032
Sargon	MCSN094

Santolina

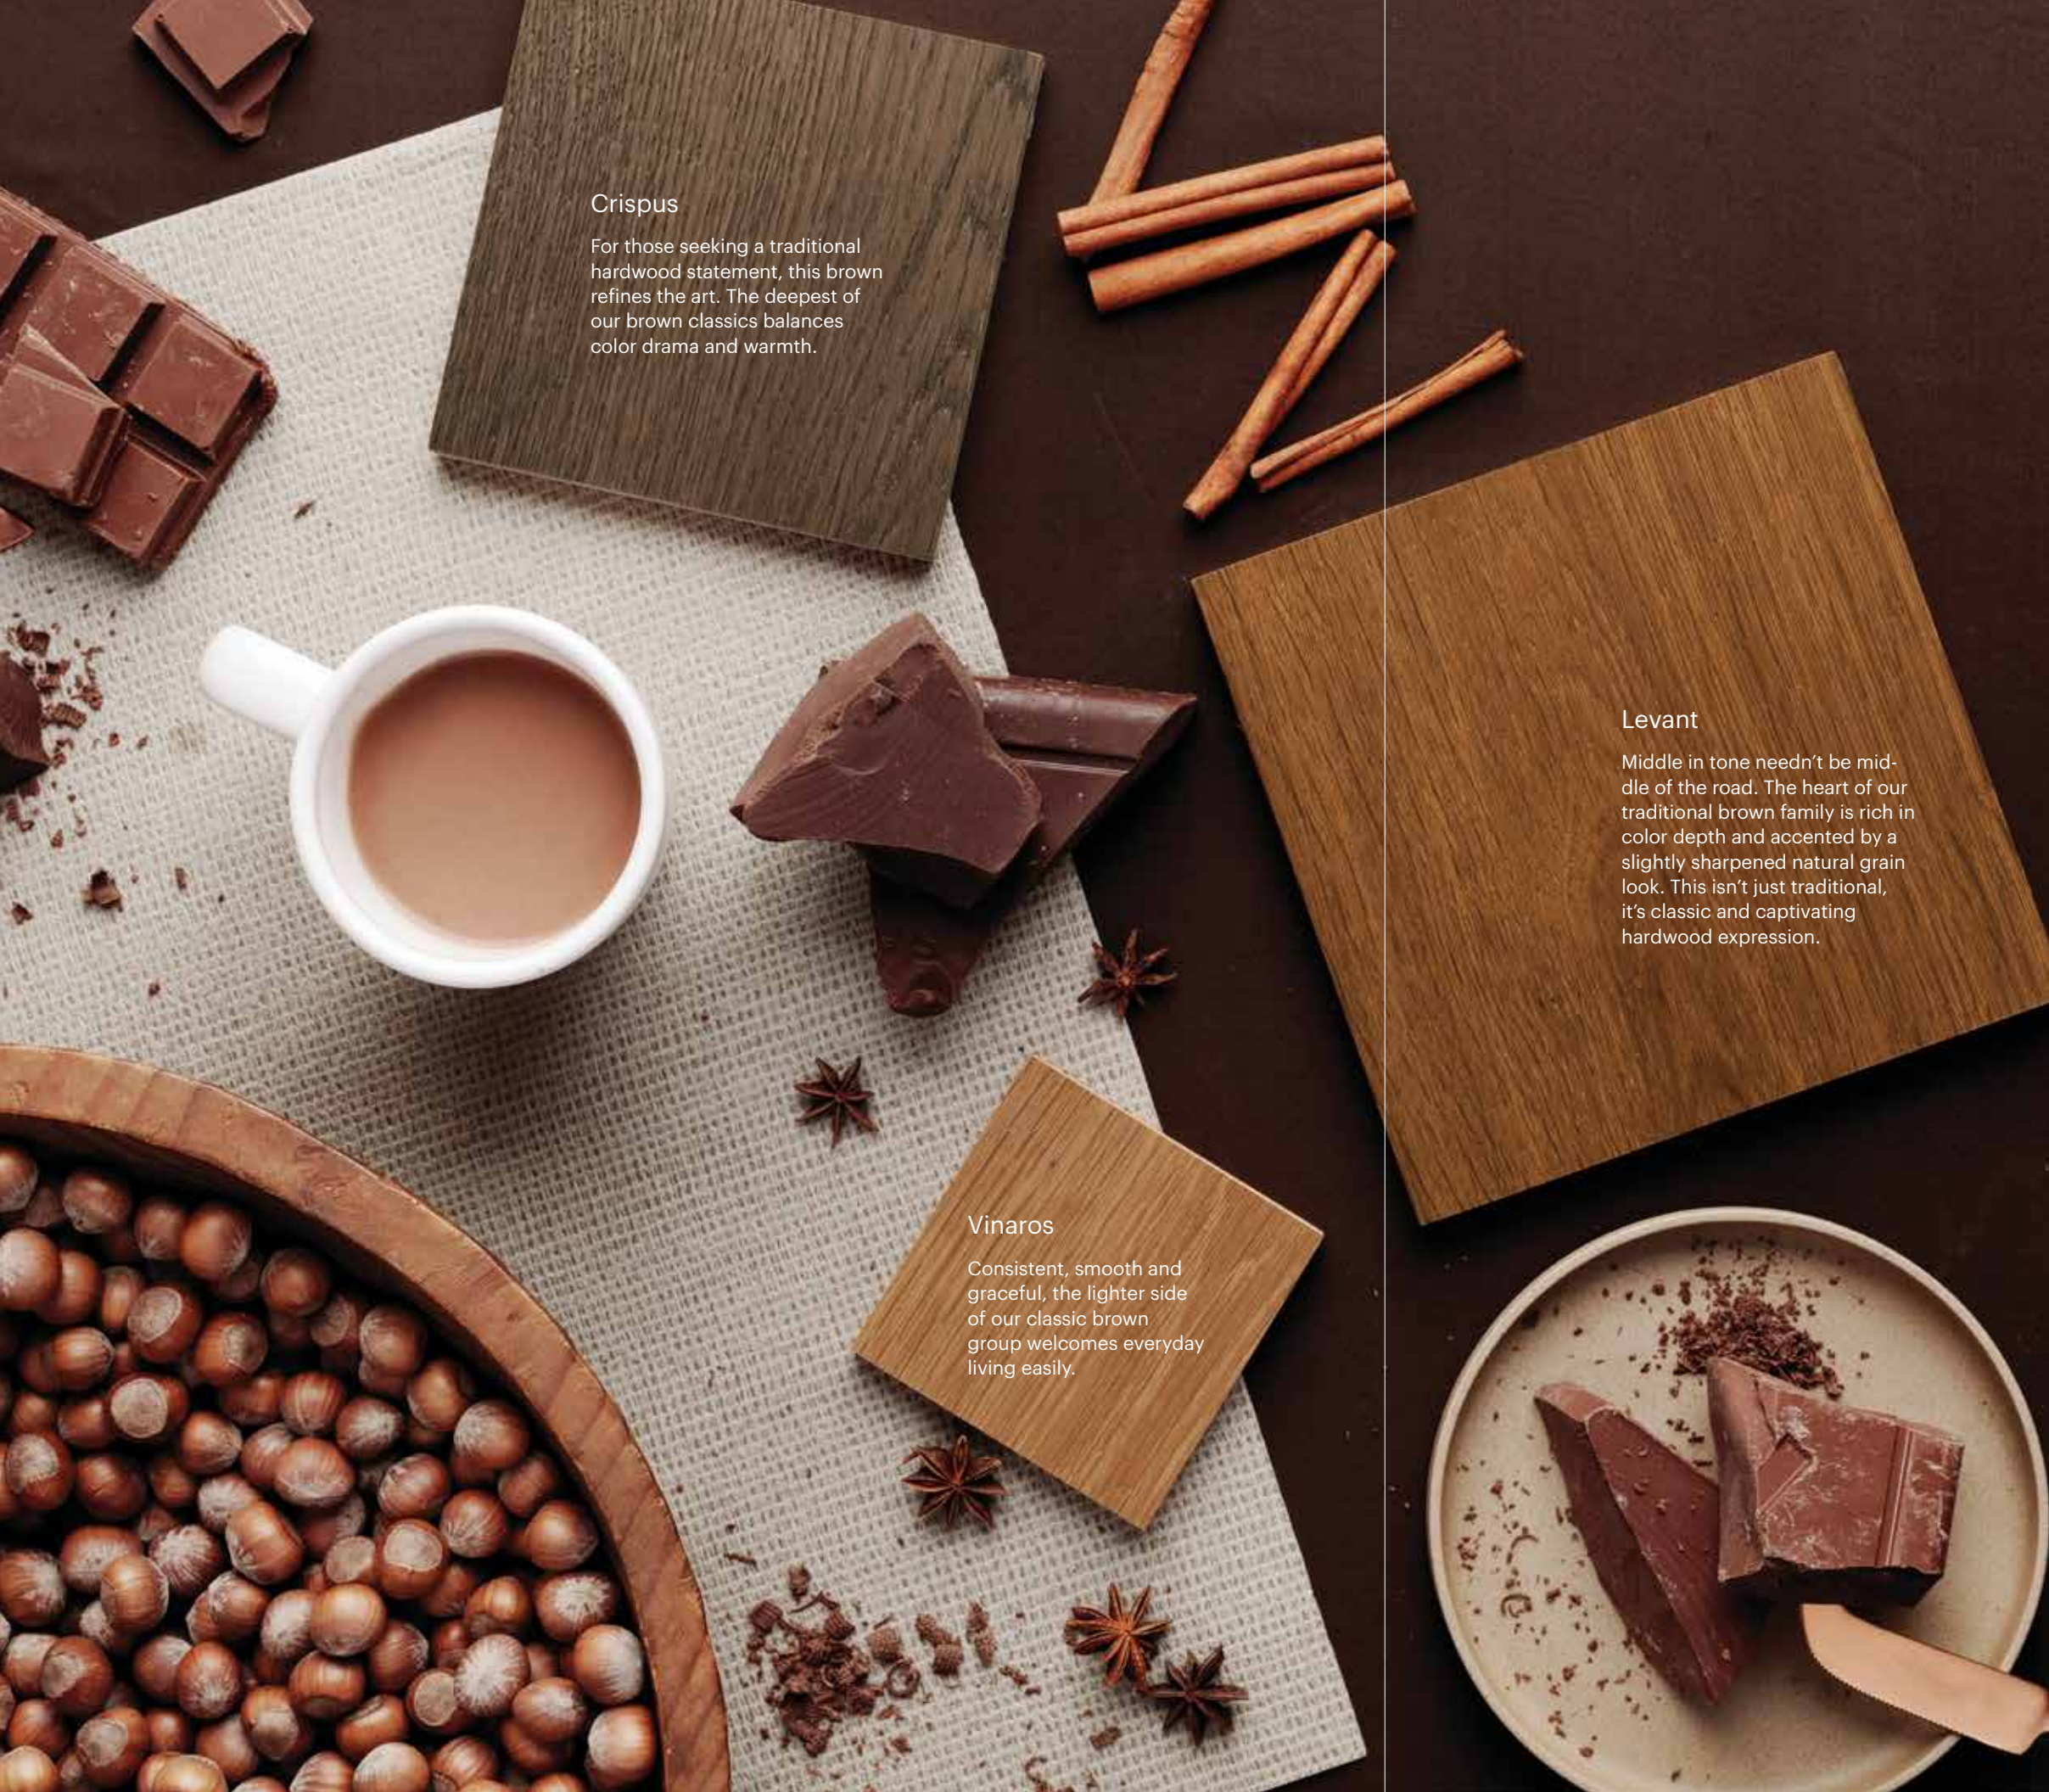

Deep foundational gray with more pronounced hints of deep bronze, this color brings the natural Oak grain to life.

Ionian

The deepest tone of our entire color family, this near-midnight gray is softened by hints of deep bronze, a color exuding timeless, luxurious character.

Sargon

The "lightest of our darks" offers jewel-like shimmer and the warmth of lively natural grain patterns. Accompany with rich, elegant colors and fabrics for a chic ambience you'll love entertaining in, or just coming home to every day.

Crispus

For those seeking a traditional hardwood statement, this brown refines the art. The deepest of our brown classics balances color drama and warmth.

Levant

Middle in tone needn't be middle of the road. The heart of our traditional brown family is rich in color depth and accented by a slightly sharpened natural grain look. This isn't just traditional, it's classic and captivating hardwood expression.

Vinaros

Consistent, smooth and graceful, the lighter side of our classic brown group welcomes everyday living easily.

Brown traditionals. Classic design perfected.

For many homeowners, hardwood is all about colors that instantly say, "home." We've perfected the art here with a family of browns that embrace mid-tone tradition and emanate livable warmth. Find your perfect color.
