

Color Your World Modern.

California
Classics

Welcome to an exciting coming out party for color! Reinvented with a nod to nuance. Subtle hues earthy and warm, a dramatic double-smoked washed-wood look, matte or muted magnificence. The trend is set to fast forward and you now have so many exciting options! While bright is always beautiful, and deep dark hardwood hues entice the bold, a new modern color aesthetic finds a middle path.

How will you color your world?

The Mediterranean Collection

The new color of modern design.

Color is the new now. At California Classics, we've enthusiastically embraced today's designer trends with our new Aged French Oak Mediterranean Collection. Made of the finest character-grade aged French Oak, lightly wire brushed and custom dual hand stained, the Mediterranean Collection offers smoked & muted designer color tones that will color your world beautifully.

Colors that Touch the Soul

Introducing new enticing colors to our collections.

Hints of another day are captured in the new enticing color additions to the Estate, Reserve, California Classics, Pacific Treasures and Smooth Sailing series. From subtle earthy and warm hues to smokey mid-tones, these colors are a perfect balance of old and new that shouts casual elegance.

Modern Natural

Beauty pure and simple.

Here's to beauty pure and simple. For home lovers whose tastes veer towards the modern, California Classics has finessed a collection of minimally treated tones. These beautiful natural options allow authentic color and textures to take center stage. Their beauty is in their simplicity; offering warmth that lightens design with a down-to-earth, unfettered color temperature. Going natural has never been more beautiful.

Color whispers sophistication.

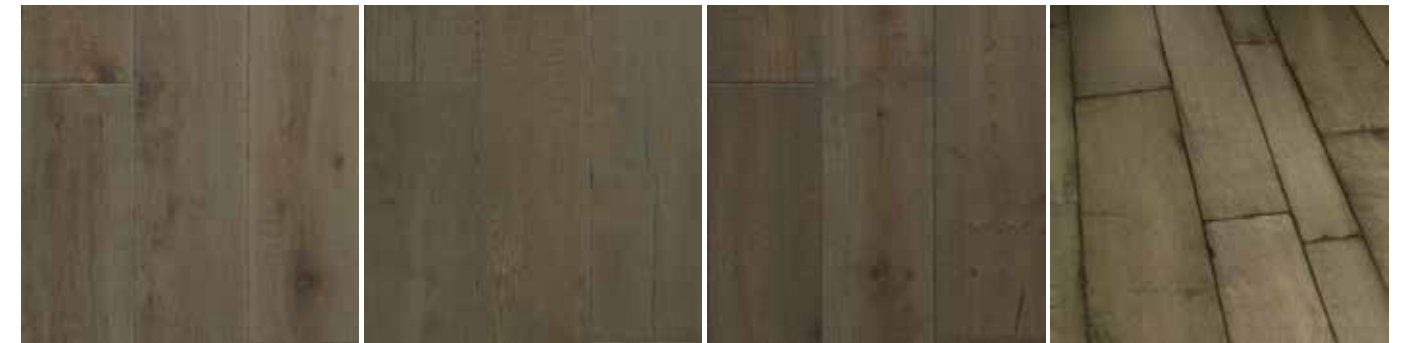

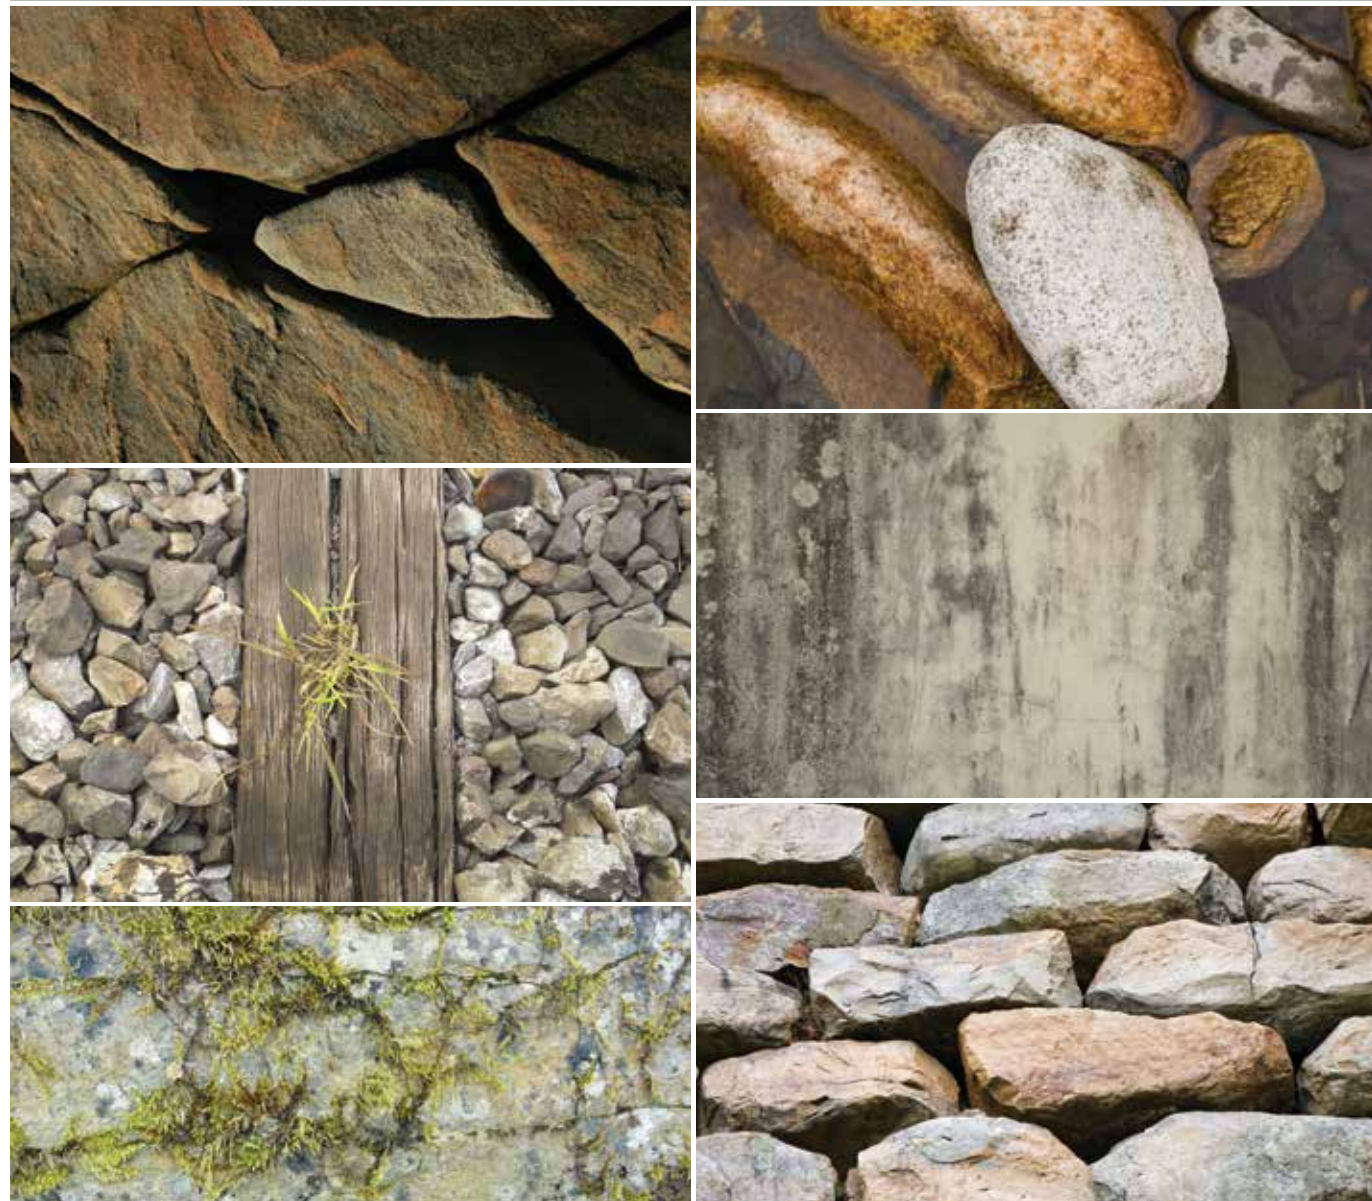

Muted or matte, a hint of smoke, a nod to uniformity. Modern tones avoid extremes to embody today's sophistication.

Earthy Gray Tones

Understated, yet eye-catching.

Mid tones may speak to the gradual aging that emanates from carefully well-maintained furnishings, frames and heirlooms. But for those who feel colors veer too green or too brown, a new color class awaits. The gray of a forest under cloud cover— the gray of fallen leaves late in season. Embrace this subtle shift to add originality to home interiors, refreshing and expanding hardwood's allure.

Earthy is in.

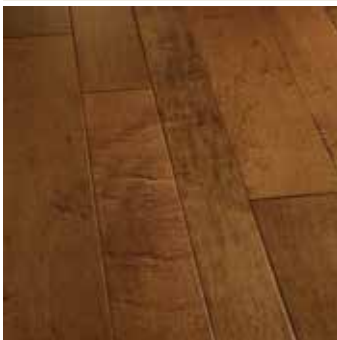

Put your design on a steady swath or terra firma. Greens or browns, the colors of nature—as stunning as they are organic.

Summer Highlights

Varying degrees of gold.

Floors shaded with varying degrees of yellow, orange and gold are a hardwood signature—warmth as an invitation to entertaining or adding an upbeat glow to everyday living. The feel is light, airy— a hint of indoor/outdoor entertaining in every step. California Classics has crafted new energy into these brighter colors and hues so they emanate outwards from wood's natural character. Lighten up with all new vibrancy!

Being bright is always in fashion.

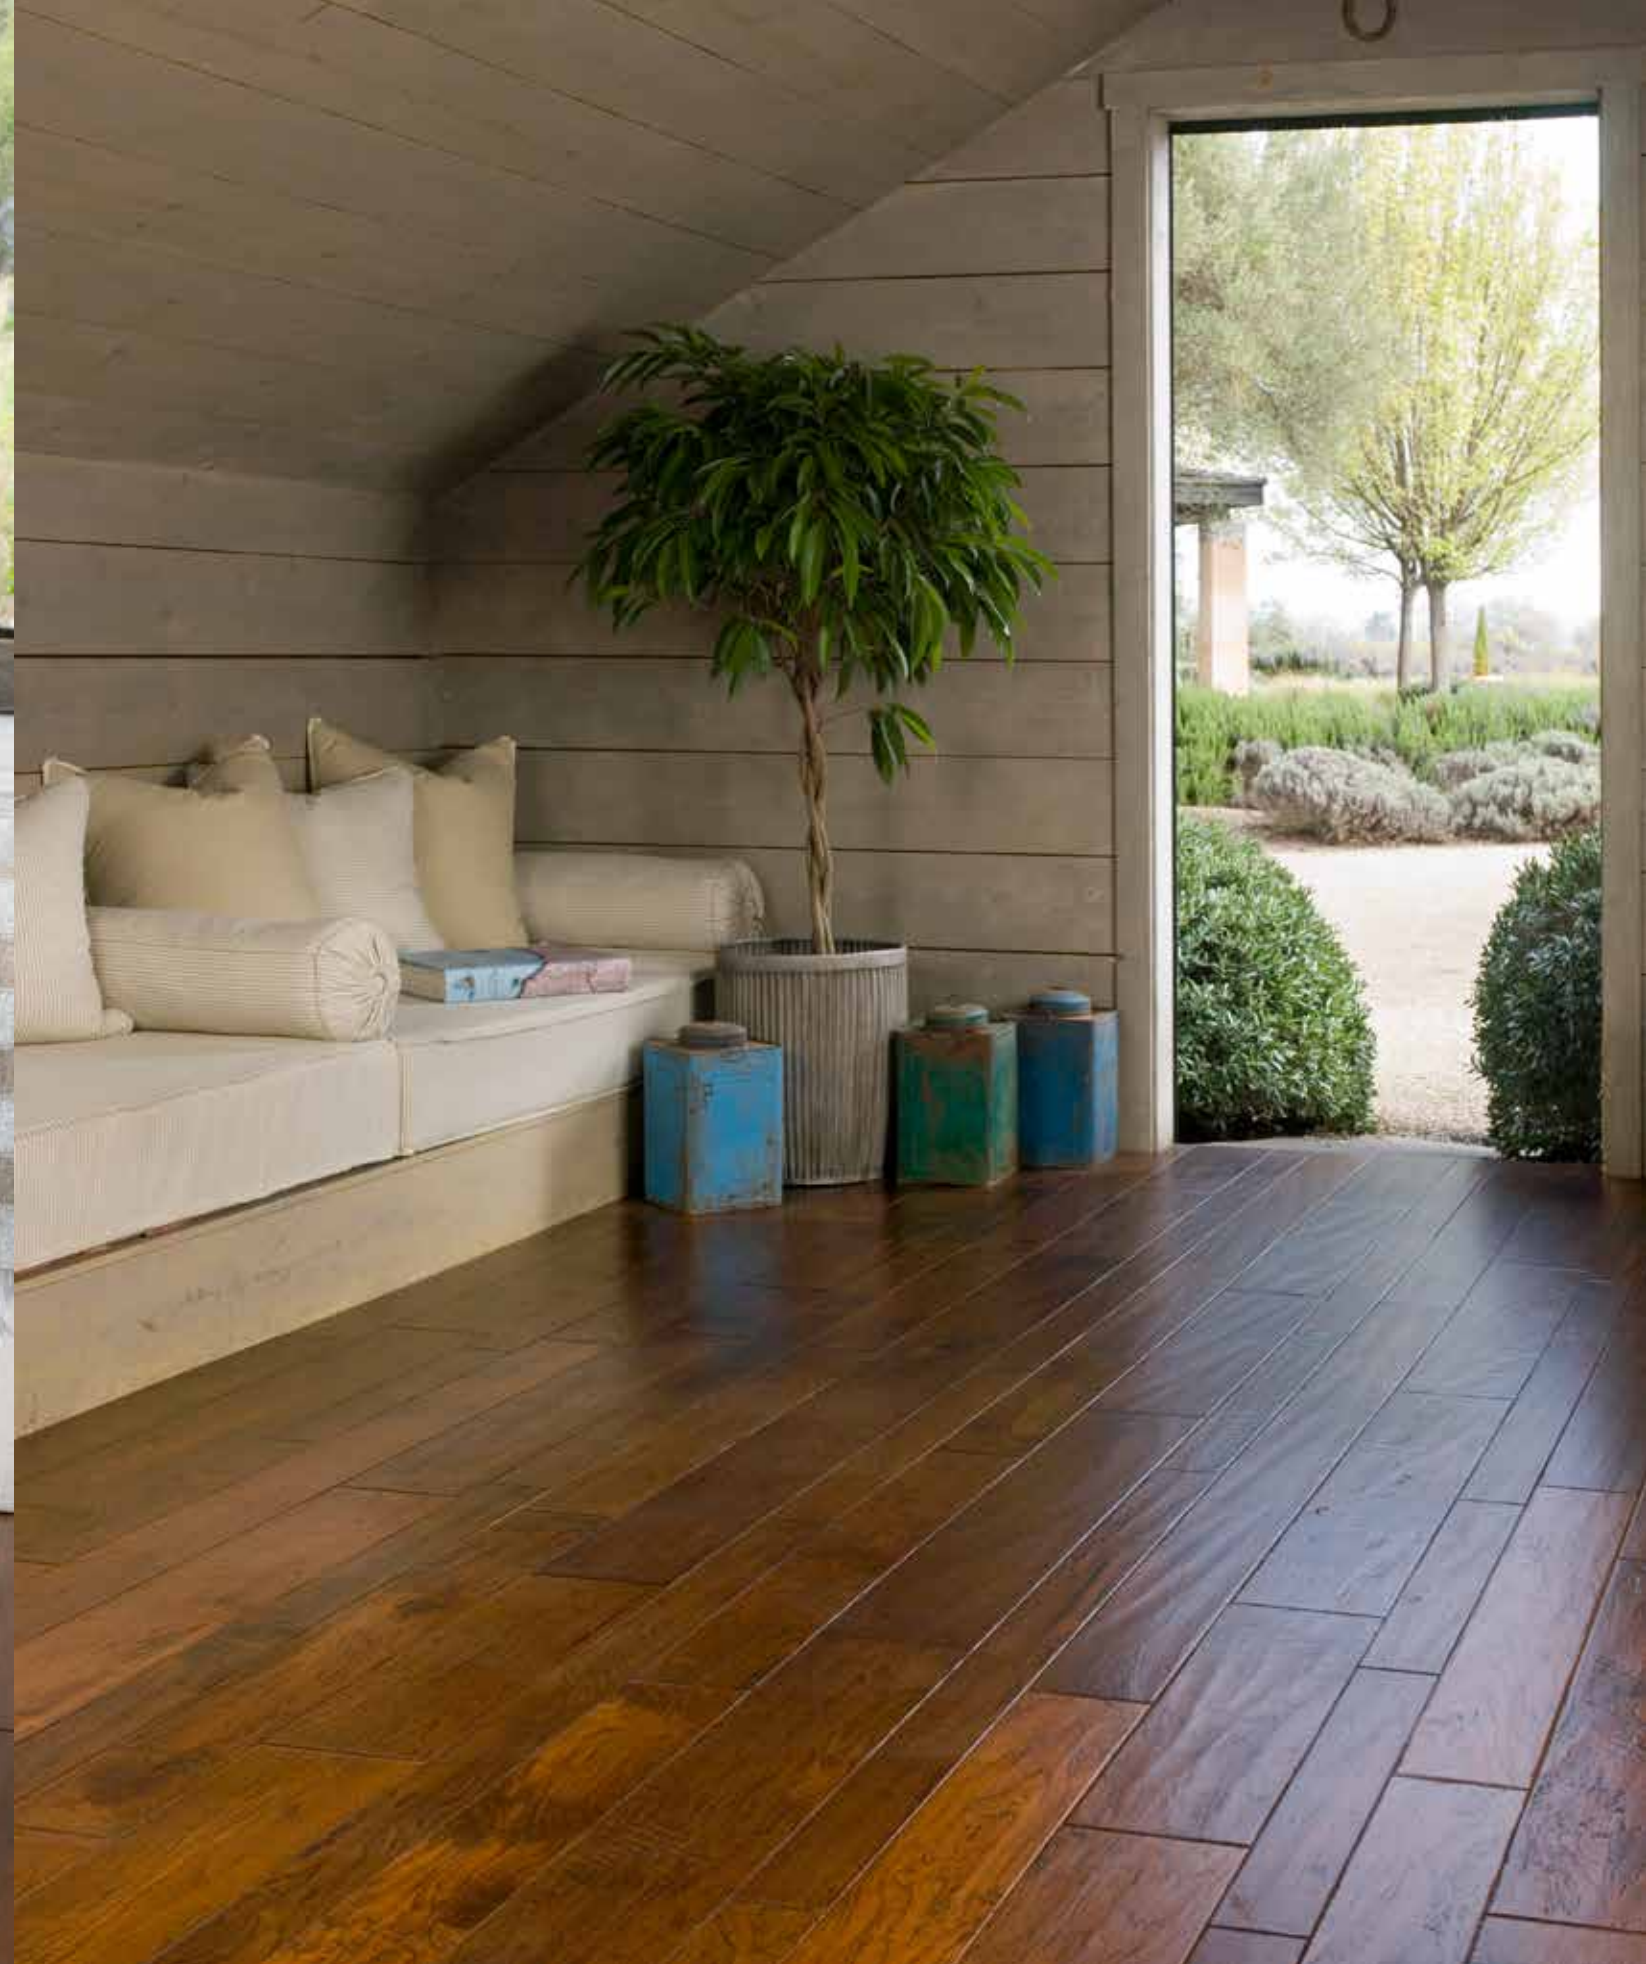

The beauty of
artisan-crafted hardwood.

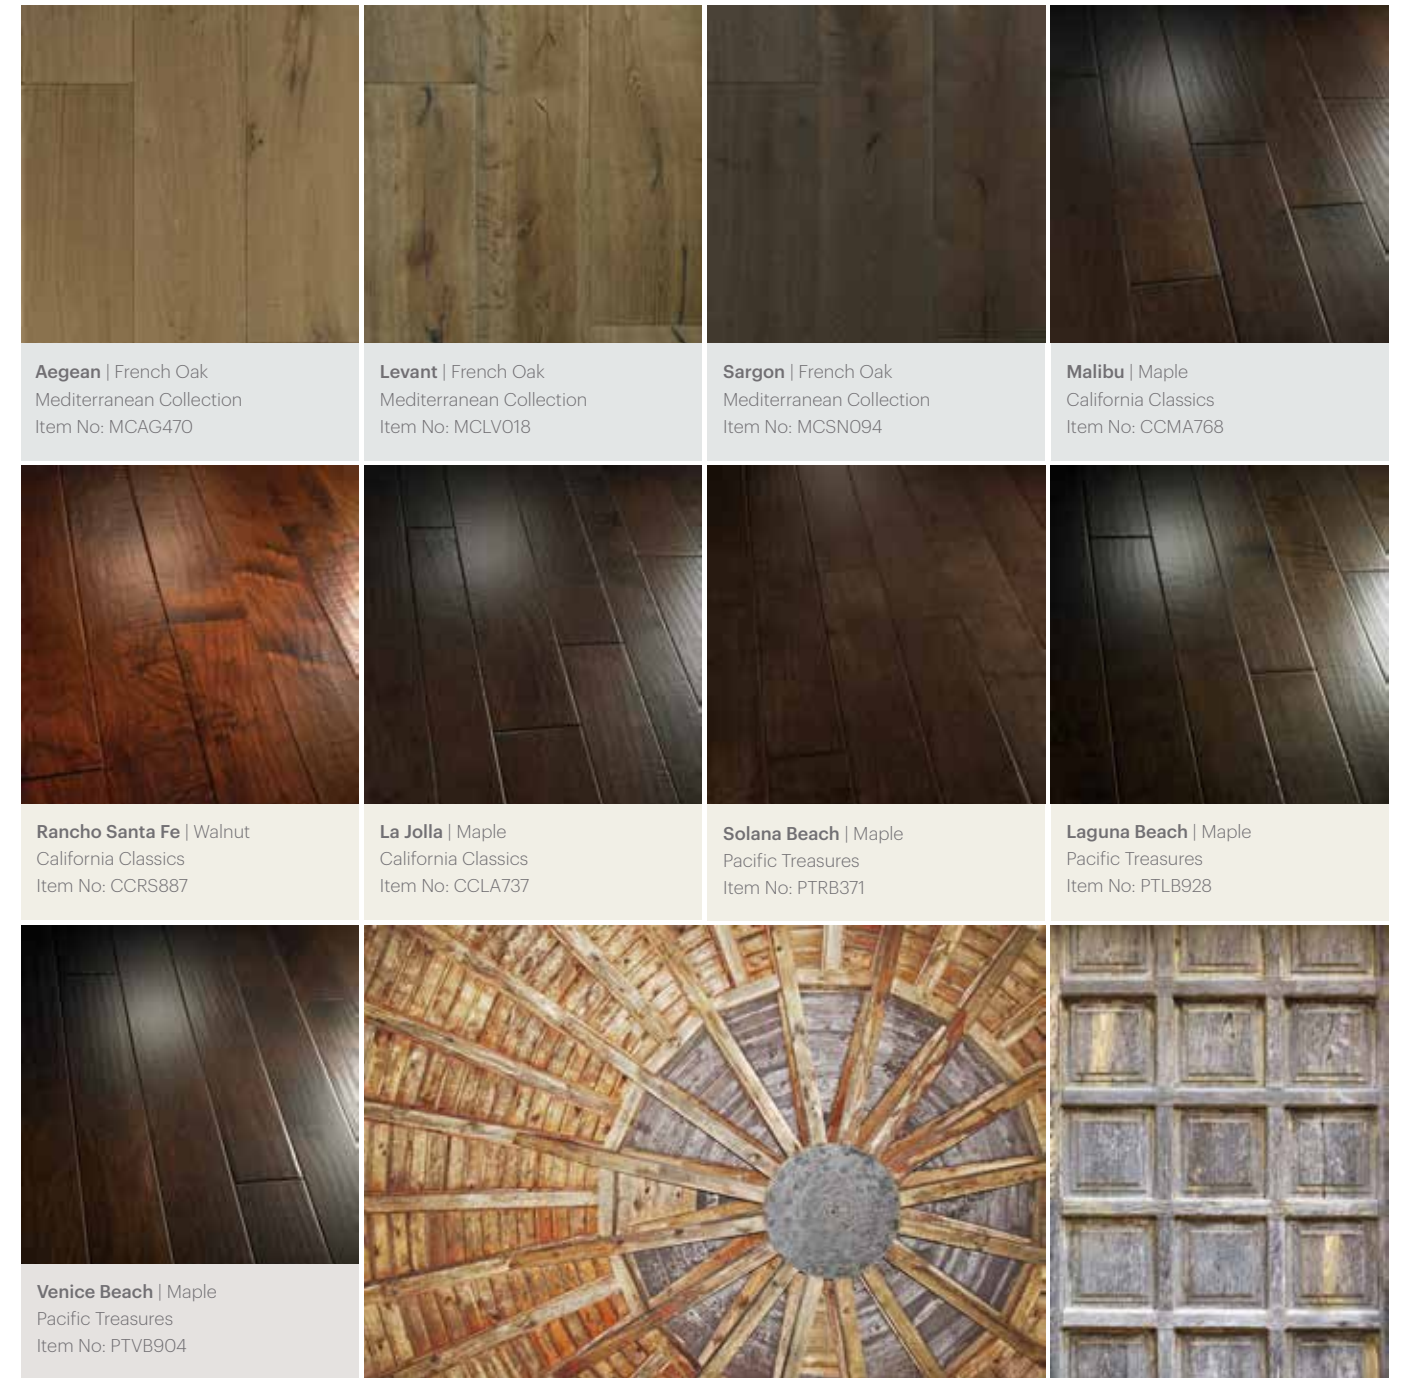

Weathered Browns

Understated Elegance.

Even as we surround ourselves in modern comforts, the look and feel of aged wood creates a powerful visual counterpoint. California Classics offers a sophisticated timeless look reminiscent of classic barns and century-old lodges, in distinctive earthy tones. Some shades are elicited through a proprietary double-smoking technique—aged to perfection. Others arise more classically. Either way, you'll welcome a color of wood with understated elegance, working beautifully with varied interior designs.

Mid-tone says modern.

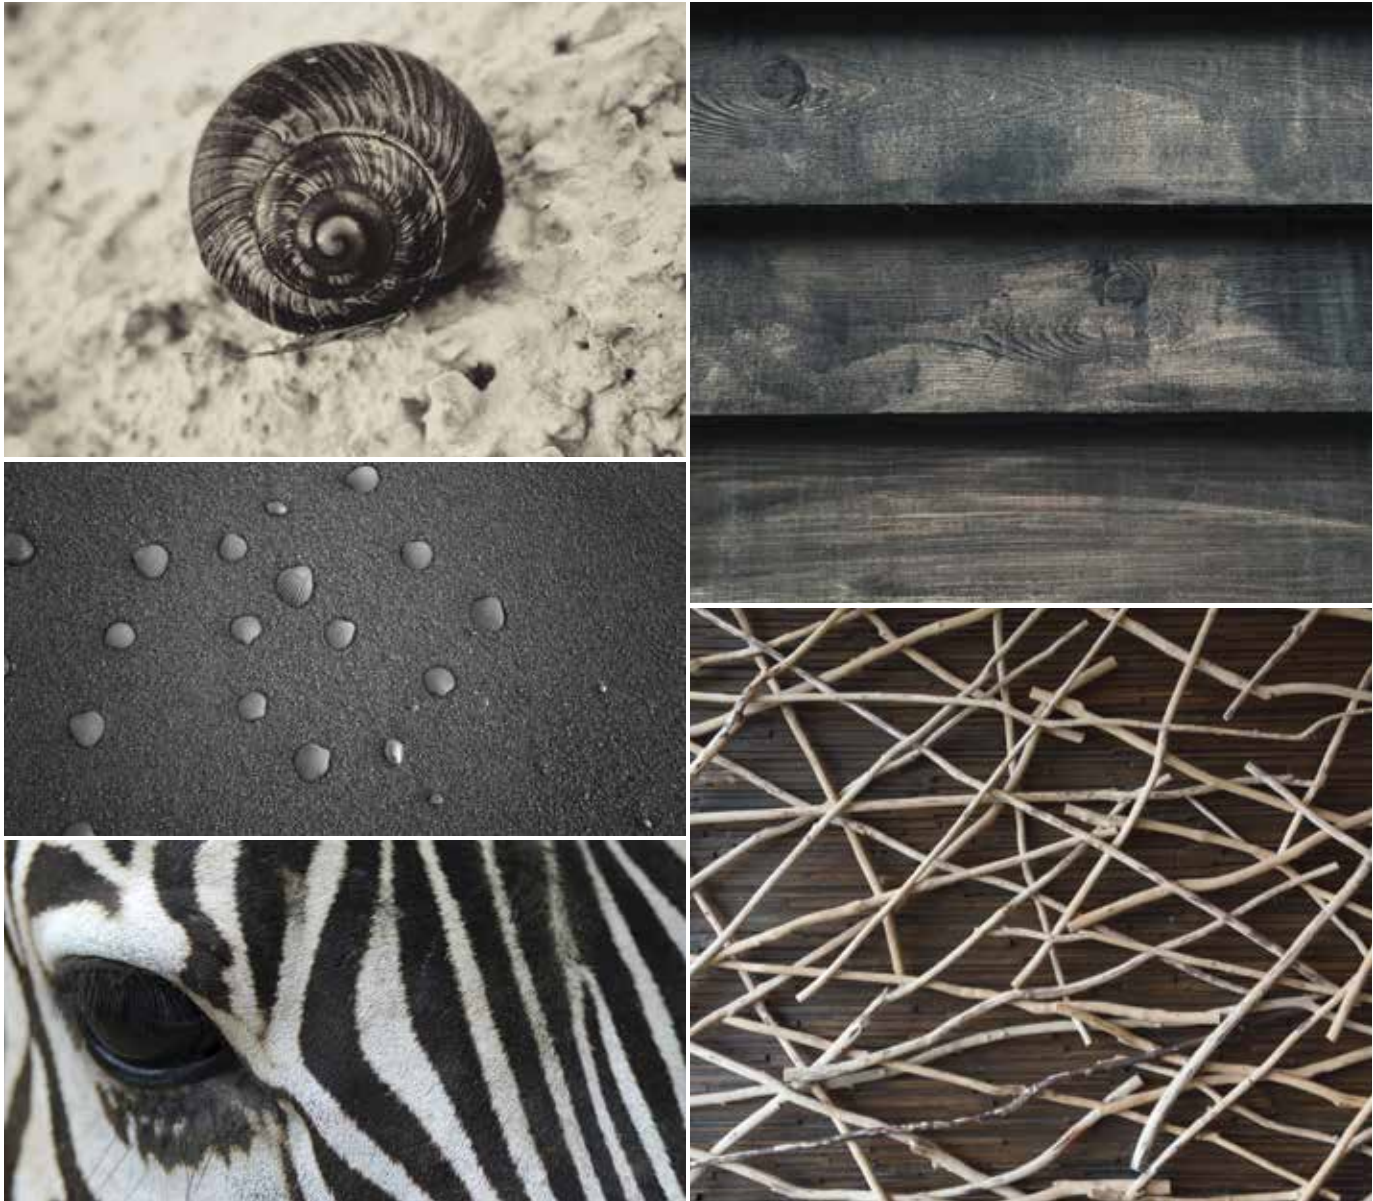

Dark Elegance

Basic black is anything but basic.

There's a reason basic black is anything but basic in fashion couture. Dark browns, grays and charcoals speak to a sense of elegance, sophistication and confidence in design. Our rich, deep colors are created to complement ultra-modern, mid-century or timeless classicism. Floors that define a bold, elegant attitude. And yet, we've emphasized each shade to heighten (instead of overpowering) wood's natural grain. It's the perfect collaboration.
